

EVOLUÇÃO

LOGIA 100 e 112
INDEPENDENTE 100
MONOBLOC 100

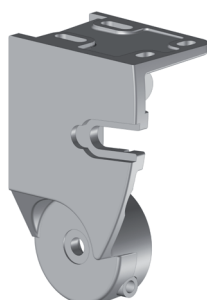

Nova regulação da inclinação do braço

- Novos suportes de braços: permitem a regulação e inclinação dos braços afim de ficarem perfeitamente alinhados
- Montagem tradicional
- Regulação da orientação dos braços inalterada (independente da segunda regulação)
- Orientação de 0 a 90°
