

SUNBREAKER PERGOLA

Horizon III

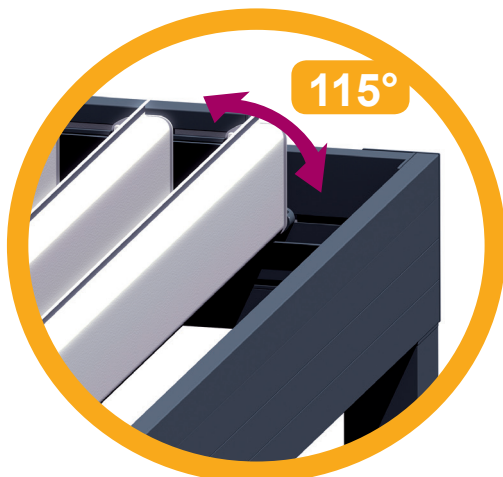

Larger with
2 pistons

BIOCLIMATIC
Horizon III
SUNBREAKER
PERGOLA

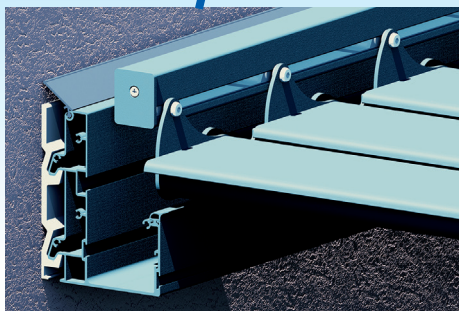

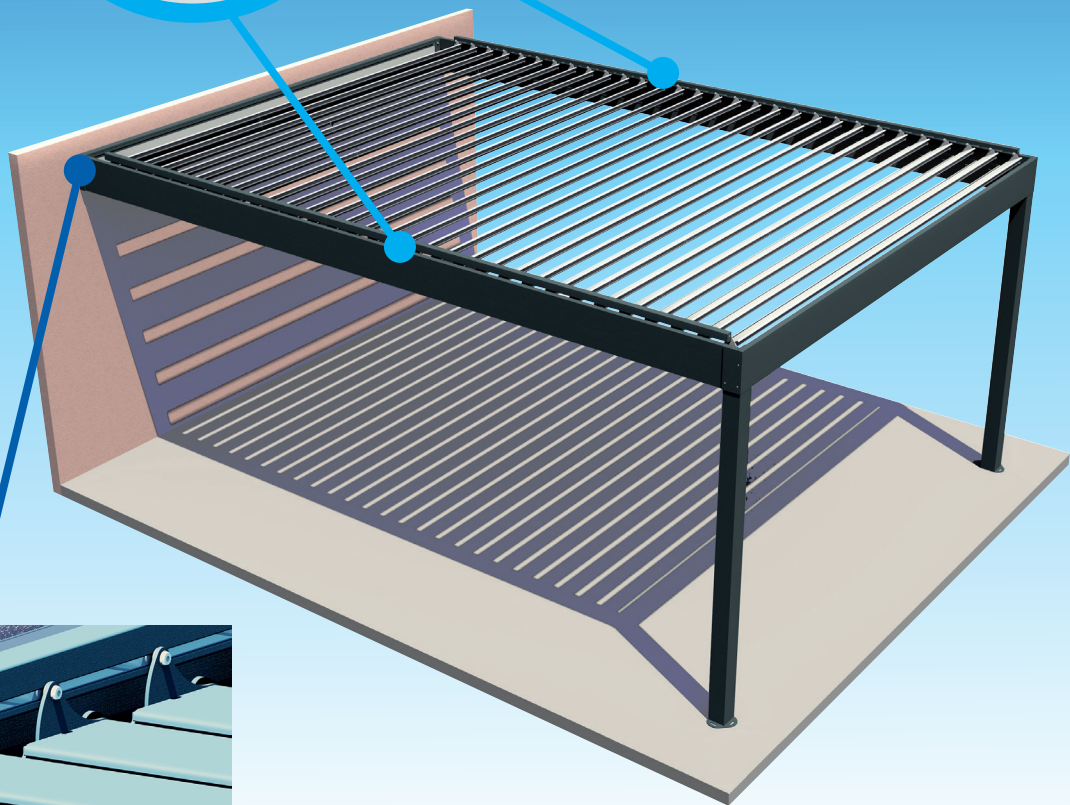

ADVANTAGES:

- Totally new structure: New profiles, slats and 115x115 legs
- Larger surface up to 27m²
- Adjustable sun intensity: partial or total, bioclimatic, slat opening at 115°
- Operation with double electric piston
- LED lightning option available

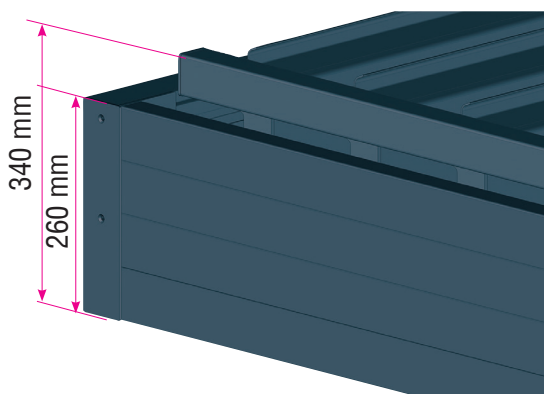

Sunbreaker pergola Horizon III is composed by 2 **electric pistons**, **sturdy** and **silent**. These pistons provide a gentle slat opening for a better adjustment of sunlight.

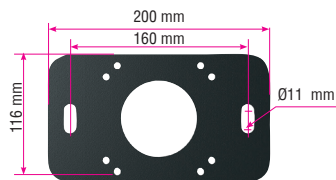

Fixture supports provide an easier installation thanks to their multiple position possibilities.
